19 June 1952

MEMORANDUM FOR: CHIEF, REPORTS DIVISION, ORR
SUBJECT : Request for Information
REFERENCE : Case #K-8461

1. It is requested that this office be supplied with information concerning the vulnerabilities of the East German railroad system to interference such as removing the packing from freight car hot boxes, re-routing cars to false destinations, and causing slowdowns in repair yards.

2. It would be appreciated if a report based on available information and intelligence could be furnished by June 24.

3. Questions pertaining to this request may be referred to [REDACTED] on Extension 8655.
